MEDICINAL.

CURES OTHERS

Mrs. Martha Janz Pringle, of Chase, Jackson Co., W. Va., writes: "Having been a great sufferer for many years with nearly every disease my sex is heir to, I can now say I am well and hearty. Have done more hard work in the past year, and with more ease, than I have done for twelve years.

Before consulting you I was the most wretched among women, unable to walk or sit up in bed, and now I owe my good health all to Dr. Pierce's Favorite Perscription, 'Golden Medical Discovery' and 'Pellets.' I gained twelve pounds while using the first bottle of 'Prescription.'

I send you my picture together with my

of 'Prescription.'
I send you my picture together with my most heartfelt thanks. To any one suffering as I did who wants to know the particulars of my case and who will send a stamped envelope with name and address on, I will write particulars."

WHY NOT YOU?

CARDINE, From the brain.

TESTINE, From the brain.

TESTINE, From the ovaries.

The physiological effects produced by a single dose of Cerebrine are acceleration of the spinal cord.

The Russian Thistle Plague. The Russian thistle, for the extirpation of which North Dakota farmers and railroads ask \$1,000,000 from Congress, first made its appearance in 1878. It came in some shipments of flaxseed from Russia, and does not exist across the Canadian line. The Russian pest is more destructive than the Canadian thistle. It has no leaves and cannot be burned. It grows among the grain, and when the grain is taken off it grows into an immense mat of weeds, thickly interspersed with briers. It is impossible to plow through it, and in some losible to plow through it, and in some lo-calities farmers have had to abandon the land. Along the Huron, Aberdeen and Ellendale branches of the Great Northern railway the Russian thistle covers many grain-fields, and also por-tions of the railway's right of way. Un-less action is taken, aided by the farm-ers, the damage to the land will be in-finitely greater than any of the worst ers, the damage to the land will be in-finitely greater than any of the worst grasshopper plagues these districts have ever experienced. Unless check-ed it will extend to southern Minneso-ta and South Dakota. The danger from this source is very great, inasmuch as if the grain from these dis tricts is shipped to other localities, and if any of these remains, the same trouta, near the South Dakota line, have been abandoned because of it. In one county fifteen quarter-sections have been abandoned. The horses' legs are covered with leather leggings to pro-tect them from the thistles, and where

the thistle is dense it is impossible to force one's way through it. It became so troublesome in one Russian province that the government for two years supported the peasanty, and only required that the latter should twice a year plow the thistle up and turn it under.

KAISER TO LEAD AN AUMY CORPS .-Plans for the German army maneuvres are now completed. The Emperor and Empress and the King of Wurtemberg will arrive in Koenigsberg on September 4. They will be welcomed by 30 young women in white, who will scatter flowers and do other conventional things. The Emperor will unveil a monument to the old Emperor, proba-

bly emphasizing the importance of the occasion with a political and historical speech. The speech will be followed by the march past of the troops.

On the 6th, the Emperor will lead the First corps toward Braunsberg, to Seventeenth corps, advancin

from Elbing. On the 12th, a great bat-tle will be fought, the First corps, led by the Emperor, defeating the Seventeenth, and driving it toward Thorn. The end of the imperial programme involves the concentration of the entire Third corps in Berlin, on September

25. This corps is generally garrisoned throughout Brandenburg, but will be brought together with its full 30,000 men to respond to the Emperor's alarm signal. After this demonstration, which is sure to turn the city topsy turvy while it lasts, the military season will close with a parade on the Tempelhofer Feld.

\$500,000 IN A CAVE .- A company has been organized here, says a Lampazos, Mexico, telegram, and permission has has been obtained from the State government to explore the cave recently discovered south of here, for hidden treasure. According to documentary evidence brought to light a few months ago, there are about \$500,000 in gold secreted in the cave, having been placed there by a bandit chief nearly a century

Seven men have already lost their lives from fire-damp within the past few months while attempting to search the cave for the treasure. The new company will go prepared to overcome all such obstacles
